INTERACTIVE RACETUNNEL

Can you outrun an elephant? Or a camel? Find out with Interactive Race Tunnel, the ultimate – crazy - physics-driven four-player sprint.
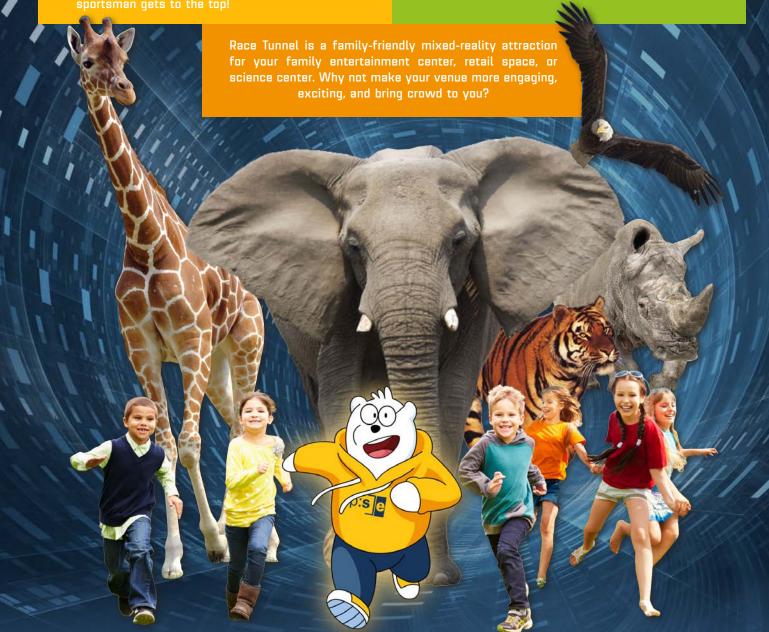

HOW DOES IT WORK?

Stretch your muscles and embark upon the ultimate multiplayer racer experience. Run on a real track against a virtual animal and learn which animals can be beaten and which you will never be able to outrun – you will be surprised!

1. Ready. Set. Go! – simply step on the starting point to start the race
2. Run!
3. See your results & finish line photo
4. But don't be scared of failing – try again until your sportsman gets to the top!

FEATURES

- Two content options: Edutainment and Retailtainment
- Virtual animals are selected randomly
- Custom content can be added on demand
- Intuitive design for smooth operations
- Completely automatic and does not require an operator
- Precise tracking system of all runners

Race Tunnel is a family-friendly mixed-reality attraction for your family entertainment center, retail space, or science center. Why not make your venue more engaging, exciting, and bring crowd to you?

VISUAL DISPLAY SYSTEMS - MEDIA BASED ATTRACTIONS DOME CINEMAS - SYNTOUCH RADAR

INTERACTIVE RACETUNNEL

CAPACITY

1 lane → 180 PPH
2 lanes → 360 PPH
3 lanes → 540 PPH
4 lanes → 720 PPH

SPACE REQUIREMENT

9m to 15m of projected wall
1m per running lane
3.5m minimum height requirement

CONTENT

Interactive Race Tunnel includes a full 15-meter high-brightness projection, our signature SYNtouch Radar tracking system, and professional sound system.

The system is made of durable components for 24/7 use and is highly automated. It assures a very low fault rate and low maintenance cost combined with a long lifetime of the attraction.

MAINTENANCE

Interactive Race Tunnel comes with a standard library of animals that is updated and enlarged every year. Custom content is also available: you can have your mascot or favorite animal race too!

TRY ANOTHER WORLD AND KEEP RUNNING!
