

FLYDOME

Get ready for the most thrilling flight adventure! Unleash your inner pilot, jump in on your private jet and explore the most secret gems of the world.

6DOF movement with high range of motion - Stunning high-res projection with full dome screen - Scalable capacity

flyDome creates an immersive flight experience thanks to its suspended seating dynamic platforms with dangling feet and thrilling special effects.

flyDome's state-of-the-art technology induces the feeling of free flight, by letting visitors glide across and amidst stunning landscapes.

Based on decades of experience in the professional simulation industry, **flyDome** integrates our latest know-how in serious flight training and simulation.

**We take your visitors into
the real flight immersion!**
